Tech Skilling

JavaScript?

Bit of HTML?

Self taught or maybe some training?

Built your own gaming computer?

You belong in *Tech*

Do you have a **passion for tech** and would like to pursue a career in field without prior experience or training?

AMS Tech Skilling can get you there. You'll be skilled up, certified and, if successful, onboarded at top companies from Consulting, to Financial Services and Pharma—brands you know & respect. It's an inside track with limited enrollment and clients waiting for freshly trained tech workers.

Train your way to a job offer

- » In demand skills
- » Real world projects
- » No hidden fees
- » Virtual classrooms
- » Earn while you learn
- » Qualifications & Accreditations
- » Digital skills

Why Tech Skilling?

Learn with others who hold a similar passion for all things tech

Peer Support

Next-gen tech thinkers & doers

Real projects

Paid during training

We'll train you. Pay you. And place you. *You get to learn really cool things!*

From the moment you start, you'll be supported in attaining valuable knowledge of the digital skills desired by tech employers, resulting in qualifications and accreditation that will help you carve out a successful career in tech.
